

The King is back

J. Arnell

When he left Memphis he headed for them Pearly gates
But the Good Lord was good and sent him on back to the States
There he got adopted by aliens for a while
But that's all been hidden away in the X-files

Then the Russians took him and they locked him up tight
They had him workin' in a karaoke club every night
But with friends in higher places he got away
And he's been hidin' with Bigfoot in the mountains 'til today

Hey, look out people the King is back
Today I saw him rollin' in his pink Cadillac
Yeah he's back on track - the King is back

Someone saw him up in Boston all dressed up as a cop
Then he moved to England working part-time in a chip-shop
Next thing he was doin' card-tricks down in L.A.
And all the time he was workin' under cover for the CIA

Hey, look out people the King is back
Today I saw him rollin' in his pink Cadillac
Yeah he's back on track - the King is back

Solo

Hey, look out people the King is back
Today I saw him rollin' in his pink Cadillac
Yeah he's back on track - the King is back

He's back on track - the King is back
